

British Medical Association

Consent

The British Medical Association provides a consent toolkit with downloadable 'cards' on different aspects of consent, or a complete 'toolkit':

<https://www.bma.org.uk/advice/employment/ethics/consent/consent-tool-kit>

Some of these relate to areas which will not be of direct relevance to osteopaths (consent for emergency treatment, for example), but overall, it provides a useful overview of the issue of consent in relation to medicine.
